

# J02290 - JLM Intake Cleaner 500ml

JLM Intake Cleaner aerosol is an essential tool for professional motor mechanics, offering exceptional cleaning performance for both diesel and petrol engines. This advanced formula is engineered to dissolve and remove stubborn carbon deposits, oil residues, and lacquer-like compounds from the intake system, ensuring optimal engine performance and longevity. The included 60cm application hose provides ease of use and precision, making it an indispensable addition to your professional toolkit.

## Key Benefits

- **Enhanced Engine Performance:** By effectively removing deposits, the JLM Intake Cleaner helps restore engine power and responsiveness.
- **Reduced Emissions:** A cleaner intake system contributes to lower emissions, helping vehicles meet stringent environmental standards.
- **Improved Fuel Efficiency:** Cleaner intake components result in more efficient fuel combustion, leading to better fuel economy.
- **Extended Engine Life:** Regular use prevents build-up that can lead to engine wear and damage, thereby extending the life of the engine.

## Application Instructions

This product is intended for professional use only.

### 1. Preparation:

- Ensure the engine is at operating temperature.
- Shake the can before use.
- Disconnect the air intake hose at the throttle body or air intake manifold.
- Insert the application hose into the intake manifold or throttle body

Note 1: do not apply before turbo or intercooler.

Note 2: do not apply to vehicles where the intercooler is integrated into the inlet manifold.

### 2. Set engine at ~1500 RPM

3. Spray product directly into the inlet manifold, spray in 1-2 second intervals (short sprays) allow engine to stabilise between sprays.

4. After 10 sprays allow engine to idle for ~3 minutes

5. Repeat the process until the can is empty

if excessive knocking or backfire occurs during the process, pause and allow the engine to idle.

## Completion:

- After the application is complete, reconnect the air intake hose.
- Allow the engine to run for a few minutes to ensure the cleaner has fully circulated and burned off any residues.
- Test drive the vehicle to verify improved performance.

## Safety and Handling

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety glasses.
- Use in a well-ventilated area to avoid inhaling fumes.
- Follow all safety instructions on the product label and MSDS.

## Conclusion

Upgrade your maintenance capabilities with the JLM Intake Cleaner aerosol. Its balanced and advanced formulation ensures a more thorough and effective cleaning process, making it the superior choice for professional motor mechanics dedicated to delivering top-notch service. Order today and experience the difference in performance and reliability.
